

## CREATING IBM NODE-RED SERVICE

Date	06 NOVEMBER 2022
Team ID	PNT2022TMID42281
Project Name	Smart Solutions for Railways

The screenshot displays the Node-RED web interface running in a browser. The browser's address bar shows the URL: `node-red-esqtu-2022-11-05.eu-gb.mybluemix.net/red/#flow/a7e987f9251c2f3c`. The Node-RED interface features a left sidebar with a 'filter nodes' search bar and two main categories: 'common' and 'function'. The 'common' category is expanded, showing nodes like 'inject', 'debug', 'complete', 'catch', 'status', 'link in', 'link call', 'link out', and 'comment'. The 'function' category is also expanded, showing 'function', 'switch', and 'change' nodes. The main workspace, titled 'Flow 1', contains a flow with two nodes: an 'inject' node with the text 'Hello Node-RED!' and a 'msg.payload' node. The bottom of the image shows a Windows taskbar with a weather widget indicating 27°C and Cloudy, and several application icons including the Start menu, search, task view, and various apps like Edge, Mail, and Teams.
